Technical Data Sheet

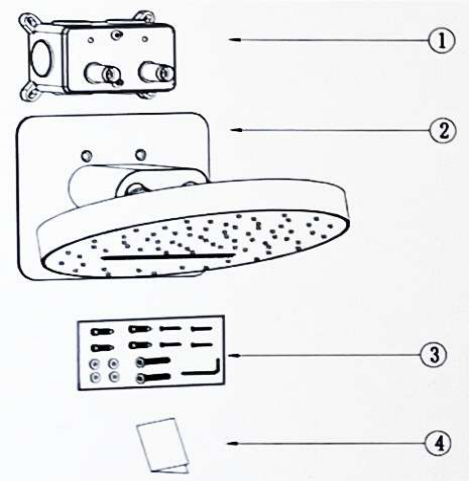

# Venn Fixed Head 370mm with Blade Waterfall

VEN-FHB-CH

10 YEARS WARRANTY

TED® Thirty Eight Degrees

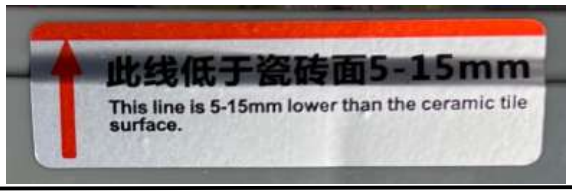

Pack contents:

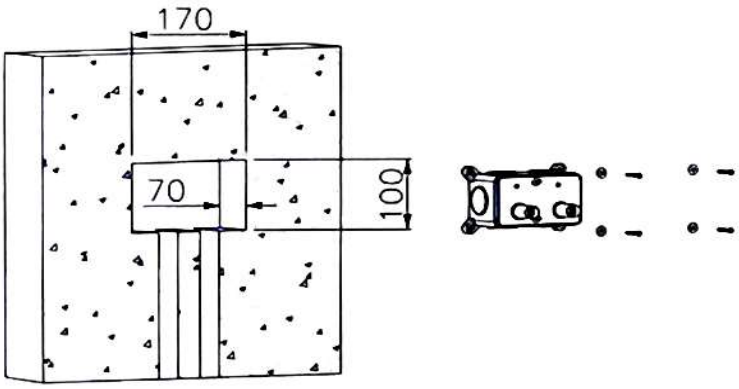

| Item | Desc | Qty |
|---|---|---|
| 1 | Recessed connection body | 1 |
| 2 | Head assembly | 1 |
| 3 | Fixings pack | 1 |
| 4 | Fitting instructions | 1 |

Based on the size of the recessed connection body, prepare a 170x100x70mm hole.

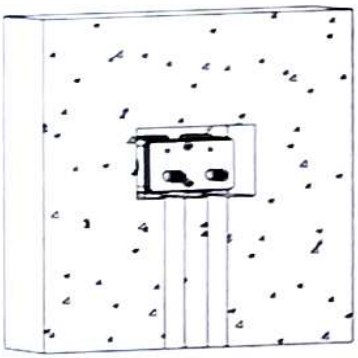

Please note the sticker marking the line which needs to be 5-15mm lower than the finished tile surface.

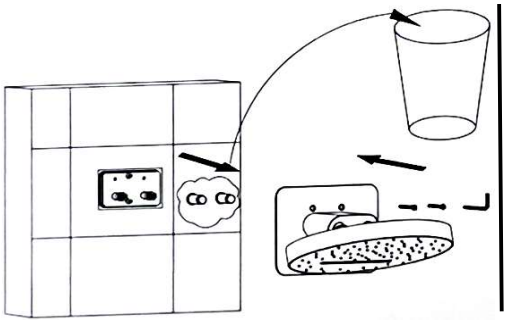

Connect and tighten the recessed body to the feed pipes, then check and adjust for level.

Adjust the level. The body lid has a spirit level built in to aid this.

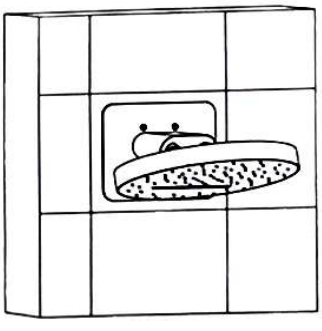

After tiling, remove the protective cover from the recessed body, insert the shower head assembly onto it and fit the mounting screws.

Tighten the screws and adjust the shower head.

Run the shower and check for leaks.

Installation complete!
